This Program (Double Control 2.0) is for Companies only.

We Do not Accept Single registrations

That`s why we call it Advanced Program “TLO”

Hey, we do not just sell; we have a mission, GREAT ONE ACTUALLY.

In the last 30 years, it happened the next version of human went out to the world it was what we call “Human development sciences “or what others call “HUMAN 2.0” issued new tactics for doing business to the world , like the selling skill , communication skills , open ended questions, closed ended questions , closed the deal in steps ,and many other methods in accelerating how human think and communicate, it achieved good results when it started, and within the last 5 Years the markets within this region had been saturated from these techniques, which was produced for us as society groups of “PUSHY sales men “and met them “group of angry unsatisfied buyers”

And actually those groups were the last thing we might need in our society.

We need to tell the world about the new marketing techniques, which is based upon asking the customer what do you want EXACTLY, and how much services would you like to pay for? And after producing the product, he (the customer) asks for it.

So we can build a new society filled of international companies started in the REGION, and produced very high quality products, while the society is filled of highly satisfied customers who really want to buy more and more of these high quality products.

When those events took place, we all hoped to see a higher growth rate in the economic, higher growth rate in the society, unemployment and violence reduction, it is our way of changing the world and making it a better place.
